

Our Mission is to bring awareness and prevention solutions to individuals, families, businesses and organizations in our CT communities as to tick borne illnesses and our tick environment here in CT. In addition we advocate for more research and a better understanding of the medical implications and needs of those struggling with Late Stage Lyme Disease and other tick borne illnesses.

SOME OF OUR VOLUNTEER OPPORTUNITIES ARE LISTED BELOW:

- ◇ Assist at events and booths by putting together packets of info, distributing brochures, responding to questions by individuals and maintaining the table in an organized manner.
- ◇ Take part in presentations once you feel comfortable with the material and follow the VALD protocol
- ◇ Attend as many presentations as possible to show support of the organization and it's values
- ◇ Research possible grant funding and sponsorship nationally and locally through state, businesses, foundations and other organizations
- ◇ With the assistance of the President develop Grant or Sponsorship applications, monitor effective dates for requests and follow up when necessary.
- ◇ A Chair, co-chair or committee member for idea generation in fundraising events. Help to market, create and distribute flyers and assist at the event.
- ◇ Help to generate lists and contact individuals, businesses , organizations or schools that would be willing to have VALD give an awareness and prevention presentation.
- ◇ Research assistant to look for new research and development of work being performed regarding all tick borne illnesses, lab reliability, prevention and tick environments
- ◇ Event organizer in charge of volunteers at events, schedules, tasks, etc.
- ◇ Provide marketing material for VALD to include social media, newspapers, radio, chamber and town communications regarding events
- ◇ Social Media person to assist current volunteers with pictures and/or video of events. Also to assist current social media leader when needed, in monitoring and adding to our social media feeds (Facebook and Instagram) to see what's happening in the Lyme community.
